What Is Delta Same-Day Flight Change?

Delta same-day flight change allows eligible passengers to switch to another flight on their originally scheduled travel date. Travelers can request changes within 24 hours of their original departure time.

Delta provides two primary options:

1. Same-Day Confirmed
2. Same-Day Standby

Both options are subject to ticket eligibility, route restrictions, and seat availability.

Delta Same-Day Flight Change Eligibility

Passengers must meet specific requirements to qualify for same-day flight changes.

Eligibility generally includes:

- **Holding an eligible Delta ticket.**
- **Traveling on an applicable Delta or Delta Connection flight.**
- **Requesting changes within the permitted timeframe.**
- **Maintaining the original departure and arrival airports.**
- **Selecting an available flight on the same travel date.**
- **Meeting applicable fare conditions.**

Delta Basic experiences are excluded from both same-day programs.

What Is Delta Same-Day Confirmed?

Same-Day Confirmed allows eligible passengers to secure a seat on an alternative flight.
Unlike standby travel, this option provides reservation confirmation when the requested change is successfully completed.

Key benefits include:

1. **Greater travel flexibility**
2. **Confirmed flight reservation**
3. **Reduced uncertainty**
4. **Improved travel planning**

- **Convenient itinerary modifications**

Confirmation depends on the availability of eligible seats and applicable fare rules.

What Is Delta Same-Day Standby?

Same-Day Standby allows eligible passengers to wait for an available seat on an earlier flight.

This option can be useful when a confirmed same-day change is unavailable.

Passengers retain their original reservation until their standby request is successfully cleared.

Standby travel is complimentary under Delta's currently published policy, but securing a seat is not guaranteed.
