Good Students Brighter Tomorrows

 A BRIGHTER JOURNEY AWAITS

Traveling as a student can be expensive, especially when you are flying internationally for university, study programs, or holidays. Fortunately, Turkish Airlines offers special benefits for eligible students through its Miles&Smiles program. The **Turkish Airlines Student Discount** can help reduce eligible airfare while also providing additional travel benefits, including extra baggage on qualifying international flights.

What Is the Turkish Airlines Student Discount?

The Turkish Airlines student program provides eligible students with discounted fares and additional travel benefits. For international flights, students aged 12 to 34 who have not yet turned 35 may qualify. For domestic flights and flights to Ercan Airport, the student age range is generally 12 to 25.

International student discounts can vary depending on the route. Turkish Airlines currently lists a 10% discount for flights departing from or arriving in Türkiye and a 15% discount for certain international transit flights. Domestic student fares can provide discounts of up to 20%,

depending on the applicable fare and route. Discounts generally apply to the base fare rather than taxes and other charges.

How to Apply for the Student Discount

Getting your student status approved is an important first step. Follow these steps:

1. Create a Miles&Smiles account

Students need to become members of Turkish Airlines' Miles&Smiles loyalty program to access student benefits.

2. Register your student status

Log in to your Miles&Smiles account and open your personal information or discounted passenger type section. Select the appropriate student option and provide the requested information.

3. Upload proof of enrollment if required

Students studying outside Türkiye or international students may need to upload a valid student ID or official document from their educational institution. Your name and date of birth should match your Miles&Smiles account information.

4. Wait for verification

After your student status is approved, you can use the student benefits when booking eligible Turkish Airlines flights.

5. Select “Student” when booking

When searching for flights on the Turkish Airlines website or mobile app, log in to your Miles&Smiles account and select **Student** as the passenger type. The applicable discounted price should appear after you select your flight.

Turkish Airlines Student Baggage Allowance

One of the biggest advantages for students is the additional baggage benefit. On qualifying international student tickets, Turkish Airlines states that passengers can receive a 40 kg checked baggage allowance under the kilogram concept. On routes using the piece concept, the allowance can be 2 × 23 kg.

This [Turkish Airlines student baggage allowance](#) can be particularly useful for students moving between countries, returning home during university breaks, or traveling with study materials and personal belongings. However, the exact allowance can depend on the route and ticket conditions, so check your booking details before traveling.

Other Student Benefits

The Turkish Airlines Student Discount may offer more than a lower ticket price. Eligible international student tickets can include a free first change, although any fare difference resulting from the new flight may still need to be paid. Student benefits also have specific conditions regarding eligible flights, passenger types, and documentation.

Student status is generally valid for one year after verification, meaning students may need to renew their verification to continue receiving the benefits. Turkish Airlines may also require the original student document during check-in, so keeping your valid student identification with you is recommended.

Final Thoughts

The Turkish Airlines Student Discount can be a valuable way for eligible students to save on airfare while enjoying useful travel benefits. Start by creating a Miles&Smiles account, verify your student status, and select the Student passenger type when booking. Before purchasing, compare the final fare, check the route-specific rules, and review your Turkish Airlines student baggage allowance so you know exactly what is included in your ticket.
